TAB COMPUTER SYSTEMS, INC.®
TECHNOLOGIES ADVANCING BUSINESS
100% EMPLOYEE-OWNED
SINCE 2021

Comprehensive E-Mail Protection

PatrolDOG email defense closes the door to harmful threats by guarding your network at the perimeter. It provides an effective, reliable, managed email protection against spam, viruses, spyware and other harmful malware.

Give your business the tools to identify, quarantine, block and strip suspect messages before they enter your network and cause damage. Our solution is powered by Proofpoint, one of the largest mail handlers in the world.

SECURITY BENEFITS
- Spam, viruses, worms, and phishing threats are blocked outside the network
- **Effectively blocks over 99% of spam**
- Immediate deployment of updates and patches
- Ease of management via our unified administrative portal

BUSINESS BENEFITS
- Reduce business disruption
- **Increase employee productivity**
- Eliminate online security capital expenditures
- Convenient month-to-month contract terms

DISASTER RECOVERY SERVICES
- Ability to send and receive emails when your mail server is down
- Automatic spooling on server failure

RESOURCE BENEFITS
- Filtering in the cloud keeps threats away from your network
- **Updates are automatic and continuous**
- Unburdens you from day to day threat management
- Reduces bandwidth consumption by eliminating spam delivery

ADDITIONAL FEATURES/BENEFITS
- Sophisticated Quarantine Management
- **Around-The-Clock Monitoring and Protection**
- Group Policy Management
- Zero Hour Threat Detection

QUARANTINE REPORTS
- Provided Daily
- Powered by Proof Point

HOW IT WORKS
- Month-to-Month contract terms eliminate high subscription costs, cumbersome technical support, and ongoing maintenance
- Billed along with PatrolDOG WEB Defense at a minimum of 15 managed seats or number of mailboxes - whichever is greater
