

PatrolDOG Security Awareness Training

Security awareness training (SAT) is becoming an increasingly popular method of cyber security training in the small business community. By deploying an SAT program, a business can equip employees with the information they need to protect themselves and the company's assets from loss or harm through a cyber attack.

WHAT IS PATROLD OG SAT?

A formal training program that educates employees on how to protect themselves and company information from cyber attacks and cyber criminals.

WHY PATROLD OG SAT?

Cybercrime is moving at light speed, and criminals aren't interested in just identity theft; they want to take over your whole network and your bank account. Our SAT program exposes employees to the tactics cyber criminals use to obtain access to the network.

CRITICAL COMPONENTS FOR SUCCESS

- 🐾 Automated training schedule
- 🐾 Creative, engaging, and relevant content
- 🐾 Campaign support materials
- 🐾 Knowledge Testing
- 🐾 Metrics & Reporting

COMPLIANCE

- 🐾 PCI
- 🐾 HIPAA
- 🐾 Sarbanes-Oxley
- 🐾 NIST 800-171
- 🐾 ISO

ADDITIONAL FEATURES/BENEFITS

- 🐾 TAB administered program
- 🐾 Auto-enrollment for new employees
- 🐾 Ongoing simulated phishing to help keep your employees sharp and on the lookout
- 🐾 Easily report phishing emails through the Phish Alert button
- 🐾 Supplemental learning materials are provided monthly
- 🐾 Automated reporting

HOW IT WORKS

- 🐾 15 user minimum
- 🐾 Billed per number of enrolled users per month

NIST 800-171 COMPLIANT

- 🐾 Awareness & Training - 3.2.2, 3.2.3
